Battery Terminal Protector

DESCRIPTION

TREBLEX Battery Terminal Protector is designed to protect against battery failure and maintain maximum performance by protecting terminals from corrosion.

FEATURES

- 360° valve, use inverted if needed.
- Helps prolong battery life.
- Helps eliminate hard starts and battery failure.
- Highly resistant to sea water and salt spray.
- Repels water.
- Resists water wash-off.
- Remains flexible.
- Reduces maintenance time.
- Permits quick assembly of battery connectors.

APPLICATIONS

- Recommended for use on battery posts.
- Battery terminals.
- Battery brackets.
- All stationary motors, generating plants, marine applications and back-up systems.

DIRECTIONS

- Shake can well before use.
- Apply directly onto area to be treated.

SAFETY

Keep out of reach of children. Harmful if swallowed. Use with adequate ventilation. Read Material Safety Data Sheet before use.
