## HD Brake & Parts Cleaner

### DESCRIPTION

TREBLEX HD Brake & Parts Cleaner is specifically designed as a slower evaporating cleaner to penetrate and effectively dissolve and remove grease, oil, and other contaminants in extremely difficult cleaning situations. This heavy duty cleaner is specially formulated with highly refined, effective and safe solvents. HD Brake & Parts Cleaner can be used without disassembly of brake parts, but primarily it is designed for heavy duty cleaning of machine parts such as forklift chains and slides, wire ropes, open gears and many other applications where in situ cleaning is essential both in and away from the workshop.

### FEATURES

- Non toxic - contains no chlorinated solvents.
- Economical in use, doesn't evaporate away before doing the job, saves product.
- Convenient to use "in place" cleaning no disassembly required.
- Safe and highly effective cleaning.
- Non corrosive.
- Product will evaporate slowly not needing to be washed away with water to ensure effectiveness.
- 360° valve, use inverted if needed.

### APPLICATIONS

When used as directed Treblex HD Brake & Parts Cleaner may be used in the following applications.

- Will flush built up grease from chains and slides on forklifts, wire ropes and all other types of industrial equipment.
- To remove brake fluid, heavy build up of oil, grease and other brake contaminants from brake drums, linings, springs, shoes, pads, discs and calipers.
- Flushes away heavy build up of grease from clutches and clutch discs.
- Highly effective on cleaning hydraulic oil spills and for removing it from clothing.
- It can also be used to clean all types of industrial and agricultural parts and equipment.
- Ideal for use from DIY to the heaviest duty Industrial Applications
- Helps stop disc brake squeal.

### DIRECTIONS

- Shake can well before use.
- For personal safety, DO NOT use on equipment that is energized. Turn power off before use.
- Flammable formulation – deactivate equipment before use.
- Spray evenly from approx 20cm onto the area being cleaned allow product to penetrate, and then spray to wash away soilage.
- Use extension tube where necessary for hard to reach areas.
- Test on small area before using on plastic.
- Protect all rubber parts and painted surfaces from spray.

### SAFETY

Keep out of reach of children. Harmful if swallowed. Use with adequate ventilation. Read Material Safety Data Sheet before use.
