Brake & Parts Cleaner

DESCRIPTION

TREBLEX Brake & Parts Cleaner is a specially formulated product that contains no chlorinated solvents. It is designed to quickly and safely dissolve and remove grease, oil, and brake contaminants. It can be applied without disassembly of brake parts.

FEATURES

- Non toxic – contains no chlorinated solvents.
- Convenient to use “in place” cleaning, no disassembly required.
- Versatile, has many uses.
- Safe and highly effective cleaning.
- Non residual, non staining, non corrosive.
- 360° valve, use inverted if needed.

APPLICATIONS

When used as directed Brake & Parts Cleaner can be used for the following applications:

- To remove brake fluid, oil, grease and other brake contaminants from brake drums, linings, springs, shoes, pads, discs and callipers.
- Flushes away build up grease from clutches, clutch discs.
- Helps stop brake disc squeal.
- Can be used to clean parts and workshop tools.
- Can be used to flush built up grease from chains and slides on forklifts and wire ropes and other industrial equipment.
- Helps remove grease from CV joints and wheel bearings.

DIRECTIONS

- Shake can well before use.
- For personal safety, DO NOT use on equipment that is energized. Turn power off before use.
- Flammable formulation – deactivate equipment before use.
- Spray evenly from approx 20cm onto the area being cleaned.
- Use extension tube where necessary for hard to reach areas.
- Test on small area before using on plastic.
- Protect all rubber parts and painted surfaces from spray.

SAFETY

Keep out of reach of children. Harmful if swallowed. Use with adequate ventilation. Read Material Safety Data Sheet before use.
