*Cavity Protection Spray*

## **CAVITY PROTECTION SPRAY**

Prevents and stops rust from developing. Its excellent flow properties enable Cavity Protection Spray to penetrate into the smallest of spaces.

Can be applied in vehicle cavities, such as:

- doors,
- sides,
- insides,
- bonnets,
- deck lids,
- cross-ties,
- body reinforcements and
- headlamp casings.

Protects all round, has a brownish colour, adheres very well, dries fast and forms an adhesive and water-repellent film.
