*Chain Spray*

### **CHAIN SPRAY**

The use of Chain Spray allows long-term internal and external lubrication of:

- bearings,
  - gear mechanisms,
  - roller and ball bearings,
  - O-ring seals,
  - clutches,
  - chains,
  - wire cables and
  - joints.
- Resistant to temperatures ranging from 40°C to +200°C.
  - Excellent corrosion protection.
  - Displaces moisture.
  - Does not drip or smear.
  - Transparent.
  - Good adhesion to produce smooth and quiet running chains.
  - Water repellent
  - Economical.
