Cutting, Tapping & Drilling Fluid

CUTTING, TAPPING & DRILLING FLUID

Special high performance lubricating oil and cooling lubricant for any processing where stress is caused. Particularly suitable for:

- thread cutting,
 - rubbing,
 - sawing,
 - drilling,
 - turning,
 - scraping,
 - pressing and
 - mill-cutting.
- Can be used on most types of steel, casting, high-grade steel, copper, brass, aluminium and their alloys.
 - Accelerates the processing.
 - Reduces manufacturing faults.
 - Prolongs the life of processing tools.
 - High heat resistance
 - Good adhesion
 - Free of mineral oil, biodegradable.
