Open Gear Lube

DESCRIPTION

TREBLEX Open Gear Lube is an extreme performance lubricant containing molybdenum disulphide in a blend of high load additives to give maximum protection against pitting and wear

FEATURES

- 360° valve, use inverted if needed.
- Excellent lubricity.
- High viscosity non drip formulation.
- Superior EP characteristics with Moly.
- Exceptional corrosion protection.
- High tack prevents “film rupture and squeeze out”

APPLICATIONS

- Suitable for open gears.
- Cams.
- Slides.
- Roller Chains.
- Pins.
- Slow moving sleeve bearings.
- Latches.
- Hinges.
- Fork lift slides.
- Overhead Doorways.
- Excavation equipment.
- Manufacturing.
- Marine.
- Transport Industries.

DIRECTIONS

- Shake can well before use.
- Hold can approx 20cm from area to be treated.
- Apply evenly for best result.

SAFETY

Keep out of reach of children. Harmful if swallowed. Use with adequate ventilation. Read Material Safety Data Sheet before use.
