Paint & Gasket Stripper

PAINT AND GASKET STRIPPER

- Rapidly removes cured adhesives, sealants, seal or lacquer residues in an effortless way.
- The use of mechanical remedies are unnecessary. Can be applied on metal, wood glass, ceramics, polyethylene and polypropylene.
- It is not recommended for use on sensitive plastics such as PVC, synthetics or linoleum. Test plastic compability before use.
- Removes cylinder, exhaust manifold packings and hardened sealants, such as engine sealants.
- Dissolves even the most stubborn adhesive residues (anaerobic products/cyanacrylic resins).
- Removes without effort paints, lacquers, oil, resins, tar, grease and lubricant residues.
