TAC 2000

DESCRIPTION

TREBLEX TAC 2000 is an exceptional synthetic lubricant with superior polymer technology that has tenacious adhesive qualities that resist fling off. The extreme pressure additives protect parts subjected to vibration and shock loading. Will also quieten noisy chains and gears.

FEATURES

TREBLEX TAC 2000 provides long lasting lubrication for many difficult applications where normal lubricants are not effective.

- Instant adhesive bond to metal surfaces as the carrier evaporates.
- Penetrates quickly into difficult to access areas.
- Reduces wear and friction.
- Increases all component life.
- Resists salt and hot or cold water wash off.
- Temperature range from 35 degrees to 200 degrees.
- 360° valve, use inverted if needed.

APPLICATIONS

When used as directed TREBLEX TAC 2000 will lubricate and protect the following:

- All chain drives including all types of motor cycles.
- Forklifts slides and chains.
- Tractors and farming implements.
- Pins, bushes, open gears, rails, sprockets, hoists, elevators and conveyors.
- Marine applications because TREBLEX TAC 2000 has proven resistance to salt water, making it ideal for winches, cables, wire ropes and chains.

DIRECTIONS

- Shake can well before use.
- Spray as required onto area being treated.

SAFETY

Keep out of reach of children. Harmful if swallowed. Use with adequate ventilation. Read Material Safety Data Sheet before use.
