*V-Belt Spray*

## **V-BELT SPRAY**

- Particularly suitable for machines and units standing in the open air or in a damp environment and which are therefore exposed.
- V-Belt Spray can be applied on all driving, flat, round and fan-belts made of fabric, PVC, leather or rubber.
- Better performance and more engine power.
- Has an immediate effect.
- Adheres well.
- Prolongs the life of the fan belt by profound penetration.
- Resistant to salt water.
- Does not absorb dirt or dust particles.
