Zinc Aluminium Spray

ZINC-ALUMINIUM SPRAY

For re-galvanizing and repairing damaged spots on galvanized parts as well as on welding and cutting points in steel-girder construction. Zinc-Aluminium Spray works as a corrosion protector and an optical colour compensator due to its similar colour to new galvanized metals.

- Fast-drying film.
- High adhesive strength.
- Can be lacquered over.
- Heat resistant up to 250°C (short period up to 500°C).
