Installation, Operation and Maintenance Procedures

- H-15S is designed to withstand sound shocks (maximum 175 dB).
- Fasten the bracket to wall with 1-3 screws and ensure to use all washers in the same position that the loudspeaker is delivered with. (To isolate the main body from the bracket).
- Open the lid back three screws. Lead cable through cable gland and connect to terminal. Screw lid back into place, three screws with a torque of 2 Nm to assure the IP rating.
- To change the position of the loudspeaker, please adjust the bracket (by loosening / tightening the screws) as required.
- For optimum performance, always use the correct voltage, power, and operate within the frequency limits as
- The aluminum surface of the loudspeaker should be regularly treated with paint at the same interval as with other similar outdoor equipment.
- Do <u>not</u> open loudspeaker when energized.
- This loudspeaker is supplied with two years warranty against defective workmanship.
