

The PR12 is a two-way speaker system that is lightweight yet rugged for live music or speech applications.

<ul style="list-style-type: none">• Two-way sound reinforcement enclosure• 400-watts program power• One 12 inch premium, 2-3/8 inch voice coil woofer• RX14 compression driver with 1.4 inch titanium diaphragm 1 inch exit• 90 x 40 constant directivity horn• Tweeter protection• Heavy-duty crossover• Lightweight molded polypropylene enclosure• Molded-in pole mount system• Heavy-duty metal grille• Two 6.5 jack input parallel to accommodate daisy-chaining.•	

The PR(R) series delivers superior sound quality by utilizing advanced materials, like its lightweight, roadworthy molded polypropylene exterior. The PR(R) 12 is a two-way speaker system that is lightweight yet rugged for live music or speech applications and will handle 400 watts program and 800 watts peak.

It utilizes a heavy-duty 12 inch woofer with a 2 3/8 inch voice coil and a RX14(TM) 1.4 inch titanium diaphragm compression driver coupled to a constant directivity horn.

Its durable injection molded enclosure features a black powder-coated steel grille that provides driver protection and a professional appearance. This system can be used on the floor, be pole mounted or flown via top and bottom flying inserts.
